## PORTLAND, JAMAICA

Ask pretty much any Jamaican where their favourite part of their own country is, and it's likely they'll say Portland parish in west of the island. The main tourist strips – Negril, Montego Bay and Ocho Rios – are further east. But hot properties such as Geejam, Trident and the treehouses at Kanopi House are making Portland the discerning choice. It's wetter and greener, but comes with gorgeous lagoons, Blue Mountain coffee plantations and plenty of adventure – including downhill mountain biking and river rafting.
